Kiehberg.in has been an outcome of collaboration between **Kiehberg GmbH, Germany** and **Syndicate Innovations International Limited**, India to provide quality products from Germany & other European countries for Sports and Outdoors.

Syndicate Innovations International Limited is Public Limited Company which was incorporated and registered in November 2011 and is based in Delhi NCR, India. The company started with Gun Care Products and is now the biggest importer of Shooting Equipment in India. We are very actively marking our presence amongst Indian shooters and Shooting Federations. We participate in all major tenders in India. We also provide a World Class service for repairing and maintenance of equipment supplied to our customers. We are also taking turnkey projects for Shooting Ranges.

VISION : The Company's vision is to be the one stop shop for all the Outdoor and Adventure sports needs PAN India. We intend to deal with sports like Target Shooting, Fishing, Archery, Camping, Hiking, Snorkeling, Antiques Reproductions etc. We want to be the hub of the best brands in sports from all around the world.

CORE VALUES : We believe in treating our customers with respect and faith. We grow through creativity, invention and innovative ideas.

Our aim is to provide quality sports equipment at affordable prices.

AUTHORIZATION LETTER

We hereby certify that Kiehberg GmbH, represented in India by M/s. Syndicate Innovations International Limited, E-14, Sahibabad Industrial Area, Site IV, Sahibabad, Ghaziabad, 201010 Uttar Pradesh, INDIA, is authorized DIANA sole distributor for India.

Kiehberg GmbH will devote the whole attention to the interest of DIANA and will use all appropriate means to promote the sale of the products.

All conditions of sale as well as terms of payments and price are fixed by DIANA. Kiehberg GmbH will report DIANA fully and regularly everything of importance in connection with the distribution.

DIANA trade marks and patents remain the property by DIANA and must only be used in association with products supplied by DIANA.

Kiehberg GmbH engage to assure the best service to Indian customers by offering an appropriate stock on air guns, but also on spare parts and high quality after sale service.

Kiehberg GmbH will take care for end user repairs on warranties. DIANA will provide spare parts for this.

It is in the responsibility of the customer that all imported and sold products are in accordance with current and local Indian laws and regulations.

The authorization will take effect from January 1st, 2018 and is valid until December 31st, 2018.

This authorization can be modified or amended only in written form with the agreement of both parties.

To whom it may concern Letter of Authorization

Sirs,

This is to certify that Carl Walther GmbH, D-89081 Ulm, Germany (the "Company") is in close commercial contact with:

Syndicate Innovations International Limited
G-365, Preet Vihar
Delhi 110092, India
(the "Partner").

The Partner is authorized to act as official representative for the Company in the field of distributing in its own name and on its own account Walther sporting arms as well as spare parts and accessories in India.

The Company authorizes the Partner to submit quotations and offers in the mentioned country.

If the Company and the Partner want to continue with the appointment after 31st December, 2018 they shall enter into a new agreement. Any automatic extension of the present agreement beyond 31st December, 2018 is excluded.

Faithfully,

Alexander Lorenz
Managing Director

WALTHER E-TRIGGER - the advantages:

- Rechargeable battery
- Total charging time: approx. 90 min.
- Trigger pull weight can be reduced to 15 g
- Automatic e-trigger turnoff when not in use
- Charging time for 100 shots: approx. 1 min.
- Realistic dry-firing conditions (dry-firing trigger)
- Rechargeable via mini-USB from any PC or charger
- Choice between two-stage mode & direct trigger mode
- LED indicators for system readiness and battery charge level
- Wear-free operation and exact trigger settings over many years
- Possible number of shots that can be fired with one battery charge: more than 5000

*** GST exempted for renowned shooters.**

The time is right for the E

In particular bench-rest shooters make high demands on performance of rifle. E-trigger adjustable down to 15 g only has decisive competitive advantage here. For these shooters Walther has developed special bench-rest version of LG400-E based on Expert version.

LG 400 EXPERT:

- Dry firing trigger
- Sight elevation UP
- Stock tilt is possible
- ECO valve technology:
- Minimal opening pulse
- Gun case & accessories
- Loading status indicator
- Carbon fibre barrel jacket
- Barrel weight, fore-end weights
- Reduced shot development time
- Steel cylinder with pressure gauge
- E-trigger for extremely fine settings
- EQUALIZER magnetic absorber system
- Light metal butt plate MEC CONTACT III
- Absolutely tension-free barrel mounting
- 3D grip adjustment with MEMORY effect
- Infinitely adjustable fore-end with knee joint
- Compressed air system for 300 and 200 bar
- Pressure reducer with QUICK-CLEAN air filter
- Precision stock length & cheek piece setting
- Breech: convenient loading, precise pellet guidance
- Modular system for personal features & upgrades.
- Aluminium stock with a wide range of settings and T-slot rail
- INSIGHT-OUT match diopter, CENTRA SCORE foresight holder
- Individually adjustable centre of gravity & weight distribution
- Ergonomically shaped loading lever can be placed on left-hand or right-hand side

New Precise air rifle stock Milled out of high quality strength aluminum, this stock has a very slim fore-end with large radius & is suitable for all hand sizes. Optimum vibration behaviour, stability & shooting precision by wedge-shaped design, calculated by vibration test analysis. Large knurled head screws at cheek piece & length adjustment offer high operating comfort without having to use any tools. Shortest length adjustment of stock makes stock also suitable for small shooters. New pistol grip is made of walnut & ensures a pleasant feeling in shooting position. Stock offers many possibilities to find optimal & individual position. New developed butt plate with different adjustment elements allows shooter to find perfect contact to shoulder. Stock can be turned around longitudinal axis. This allows perfect adaptation of stock & body.

Caliber	: 4.5 mm / .177cal.	Safety	: Yes
Rifling	: 420mm	Version	: Right / Left
Length of twist	: 480mm	Length of barrel Action	: 734 - 844mm
Number of grooves	: 12	Weight	: 2400g
Barrel length	: 420mm	Trigger Type	: 2 stage trigger 5065 4K
		Adjustment of trigger weight	: 30-170mm

DESCRIPTION:

Anschutz Model 9015 is a match air rifle for all marksmen & all disciplines, from junior to adult marksmen & from seniors to bench rest marksmen. New 9015 barrel action was developed based on successful ANSCHÜTZ 9003 Premium air rifle barrel action. With optimized air pressure control characteristics, a new patented 5065 4K trigger with ball bearings & versatile adjustable trigger blade, a stainless steel barrel unit & thin, special coated muzzle tube (also made of stainless steel, this barrel action will replace all former ANSCHÜTZ air rifle barrel actions in future. Maintenance free stabilizer Revolutionary firing pin & valve system for even calmer shot release Optimized flow behaviour Recoil & vibration free compressed air barrel action Extremely short lock time Precisely adjustable match trigger with axial ball bearing Optimized cocking Special concept for dry firing & safety Air filter against pollution Maintenance-friendly system Easily exchangeable compressed air cylinder with manometer Adjustable trigger blade Cocking lever mountable left & right. Stock of 9015 Black Air is for right handed shooters & is equipped with vibration absorbing elastomers. Other features of this stock are multi-adjustable aluminum butt plate & cheek adjustment. Anschutz soft-grip coating combines outstanding vibration damping & recoil absorbing characteristics of a naturally grown wooden stock with characters of an easy-care & weatherproof plastic stock.

The ultimate tactical air rifle with awesome Nitro Piston power and 4x32 scope

This ultimate tactical air rifle features Nitro Piston technology and a lightweight synthetic stock with pistol grip for control and maneuverability. The "S" in NPS indicates a short barrel. With a barrel 3" shorter than the TR77 NP (model #30005), the TR77 NPS offers outstanding maneuverability when close quarters demands it.

Features a two-stage adjustable trigger and CenterPoint 4x32 mm scope with dovetail mounts.

Daystate Renegade (.177)

Featuring Hybrid Technology

MRP Excl.GST	GST%	MRP Incl.GST
₹ 1,60,000.00	18%	1,88,800.00

- Battery Life: Up to 17,000 shots
- Safety: Manual, cross bar , bolt open deactivation
- Stock: Synthetic Green or Black
- OPTIONS: Sling swivels, bipod, Airstream general silencer, Huggett Belita silencer

come dressed in an ergonomic, ambidextrous stock featuring fully-adjustable butt pad, drop-down pistol grip and forend accessory rail, while the Renegade's sidelever-cocked action runs Daystate's tried-and-tested 10-shot, auto-loading magazine - but a single-shot loading tray can be fitted for competition work if preferred.

Max. Muzzle Velocity*	Overall Length	Barrel Length	Cylinder Capacity	Weight (unscoped)	Caliber	Loading	Magazine	Power / Shots Per Charge	Trigger
Max. Up to 19.9J	760mm (30")	430mm (17")	300cc	3.4 - 3.8 kg (7.5 - 8.3 lbs) depending on stock type & battery type	.177 (4.5mm)	Via Sidelever	10 Shot Rotary	200 shots @ 12 ft/lbs, 80 Shots @ 18 ft/lbs	Electronic release. Adjustable for weight & length of stage

Daystate Pulsar (.177)

The Next Giant Leap Forward

MRP Excl.GST	GST%	MRP Incl.GST
1,79,000.00	18%	2,11,220.00

- Fill Pressure: Up to 230 BAR (3,335 psi)
- Safety: Manual, cross bar , bolt open deactivation
- Stock: Choice of synthetic or laminate
- OPTIONS: Sling swivels, bipod, Airstream general silencer, Lithium battery

PULSAR stock is fully ambidextrous-even cocking lever can be reversed & comes in a selection of choices of synthetic, walnut, or laminate finishes. Ballistic nylon forend also incorporates a useful 23mm picatinny front rail that allows the fitting of a tactical bipod & other accessories. PULSAR is also one of safest air rifles ever, with an unprecedented array of new safety systems. Patented electronic system makes a PULSAR near-silent in field, though moderator is equipped with a threaded adaptor to suit Daystate's Airstream VI carbon-fibre silencer for extra suppression if required.

**FX Airgun
THE STREAMLINE (.177)**

MRP Excl.GST	GST%	MRP Incl.GST
1,14,406.78	18%	1,35,000.00

To make FX Airguns further accessible to more shooters, minds at FX were determined to conceive & produce remarkable high-quality air rifle, full of features & performance that FX is known for, but at friendlier price point. FX Streamline was perfect result of this quest. FX Streamline provides an unprecedented high-quality airgun at great price without sacrificing key features that redefines what it means to shoulder & shoot an FX air rifle. FX consolidated & found efficiencies of their previous designs into this more streamlined design which results in superior feature-rich rifle that gives shooter everything they need & more.

**FX Airgun
WILDCAT (.177)**

MRP Excl.GST	GST%	MRP Incl.GST
1,22,881.36	18%	1,45,000.00

FX Wildcat may be perfect compact airgun. Beautifully balanced, light weight, smooth cocking, & featuring a trigger that would be exceptional on any rifle, let alone bullpup. Original Wildcat upon its debut in 2015, quickly became top selling airgun world over. Now in 2018 FX's engineers have brought us Wildcat MKII.

MKII builds upon groundbreaking Wildcat, adding all new FX Interchangeable Barrel Liner System. This is system that allows users ability to exchange barrel liners, & if desired upgrade FX Smooth Twist barrel liner that comes standard with MKII, to an upgraded FX Smooth Twist X Barrel. X Barrel liner is a fully rifled smooth twist barrel, available in varying twist rates & bore specifications that tailor to vast array of airgun projectile weights and shapes.

Embodying every technical advancement FX has conceived to date, brand-new FX Crown is quite simply Airgun Royalty. With ground - breaking new barrel system that has left airgun world speechless & gun manufacturers everywhere in a state of shock, FX Crown is most progressively engineered & accurate air rifle ever created. Period. After receiving such critical acclaim to superior features of earlier FX Impact, FX engineers knew that many would desire these same features in a more traditionally designed hunting rifle.

Precihole SX 100 Pegasus (.177)

Spring Piston Break Barrel Fits like a glove,
shoots like a dream

Original Precihole Sports break barrel spring piston SX100 was first of a new generation of air rifles in India. The rifle flaunts many features like the specially designed all weather stock, factory tuned, optimized power, high quality rifled barrel etc. tailored for the break barrel user. Advanced manufacturing and quality control ensure reliability in every Air Rifle. Whether it be for open sight target shooting or some field target fun, this rifle always delivers. A revolutionary design that really fits like a glove and shoots like a dream.

AIR PELLETS .177 CALIBER

PARALYMPICS 2012

Manuela Schmermund

Manuela Schmermund was the first medal winner of the German team in London. The 40-year-old woman got silver by shooting with airgun. In 2004 in Athens Schmermund had won gold, four years ago in Peking she earned a silver medal, too.

Michael Johnson

Michael Johnson is the best paralympic shooter in New Zealand. He won a bronze medal at the Paralympics in 2012 in London, gold in 2004 in Athens and bronze in 2008 in Peking. At the World Championship in the years 2006 and 2010 he also won gold. In London he was honoured by carrying the flag of New Zealand at the opening ceremony.

Ammunition Test

A series that matches the air rifle can certainly obtain a hole diameter of just 5mm at 10 meters after 10 shot – with a fixed barrel. In order to be able to maintain the “10” reliably with rifles in particular, you should have a test carried out with a fixed barrel at a shooting range. Each air rifle has a slightly different barrel & pressure build-up. Having the air rifle checked by a specialist is definitely worth it!

Description

The top product for competition use. The one Olympic winners and world champions rely on. Maximum possible accuracy with maximum dimensional and weight accuracy. Tightest shot groups, clean-cut bullet holes. Minimum lead fouling and consistent shot spreads thanks to special Match alloy. Hand sorted. Head sizes available: 4.49–4.50mm. Smooth.

DIABOLO TEST DEVICE JOKER

Product Code : 19A10003

MRP Excl.GST	GST%	MRP Incl.GST
31892.86	12%	35720.00

Description:

Trust is good, control is better. With the testing system Joker * can diabolos are reviewed and ranked on their rotational symmetry. Even within ammunition batches diabolos can be contained, which differ in their manufacturing quality. This can affect the test target. The selectioning via the measurement of rotational symmetry and depending on ammunition used represent an improvement of up to 0.3 rings . The Joker can be used for all disciplines in which 4.5 mm caliber ammunition (pellets) is shot, may be used. This test method is particularly suitable for supporting and protecting Final, where now tenth-rings decide the contest.

The eccentricity of tested pellets is read via a dial gauge to an accuracy of up to 0.01 mm. Over a Dial the sensing area can be adjusted universally at the calyx of pellets. A reproducible rotation axis is guaranteed by several ball bearings. The Diabolo is fixed by a frame & can be inserted into ball bearing guided position. Very important is proper attachment of sensing measuring lever on cup of diabolo. On pointer degree of eccentricity can be read.

Scatt MX-02 - Universal

Product Code : 5000285

MRP Excl.GST	GST%	MRP Incl.GST
133035.71	12%	149000.00

INSIGHT-OUT COMPETITION SIGHT

Product Code: 276 08 51

The new Walther INSIGHT-OUT match diopter has been milled from the solid and is notable for its slim and compact design. Its special feature: a second lateral setting screw makes the diopter just as easy to set by left-handers as by right-handers. The ball bearing-mounted linear precision bearings permit exact and reproducible correction to the group.

BERETTA PX4 .177 MAGAZINE PELLET/BB

MRP Excl.GST	GST%	MRP Incl.GST
₹ 3,187.50	12%	3,570.00

Product Code: 5.8078.1

It sure makes a lot more sense to have extra mags you can load over a table or counter before you hit range than taking a bottle of BBs with you & risk spilling them on ground as you fumble around on firing line. They aren't expensive, so it makes sense to get a couple magazines & take care of loading BBs before trigger time. This is compatible with the Umarex Beretta PX4 Storm. It has a capacity of 16 BBs/Pellets with a twin rotary magazine. Double Clip, Steel BBs / Pellets .177, - 16 Rounds, Twin rotary magazine

UMAREX MAGZINE

BALLISTOL GUNCER GUN OIL WITH CERAMIC-ADDITIVES

Description :

- For professional snipers, hunters & law enforcement, for rifles, shotguns or handguns
- Special mixture of ceramic additives provide maximum performance & safe shot accuracy
- Reduces friction & deterioration of firearm
- Smooths roughness (under load, roughness at friction points will be reduced by flowgliding & plastically deformation of friction point, which extremely reduces friction in order to keep your firearm in best shape)
- Reduced power losses while reloading Self-loading pistols & rifles (even with weak load ammunition), resulting in less interferences
- Excellent corrosion protection, prevents fretting corrosion
- Works in a temperature range from -40°C to +210°C
- Ceramic additive even ensures lubrication up to +1000°C
- Water resistant & non-resining
- Without additions of silicon & PTFE

GUNTEC GUN CARE OIL LIQUI MOLY SPRAY

Description :

GunTec gun care oil for the non perishable care of all guns such as sports, tournament and hunting guns, large and small caliber and air pressure guns.

GunTec is a modern and special gun care oil for non perishable care and maintenance of all guns such as sports, tournament and hunting guns, large and small caliber and air pressure guns. It is also suited for black powder guns and for conservation of antique & shiny metal guns. GunTec gun care oil dissolves and removes black powder and other residues. GunTec gun care oil protects against corrosion and oxidation, eliminates damp, is able to creep into the smallest of fissures and reduces friction and abrasion through its special EP additives. GunTec gun care oil is compatible to plastics, paints, metal, wood and brownings or bluing. It is odour neutral and economical in use.

PELLGUN OIL- FOR CO2 AIRGUNS

Product Code: 0241

Oil every 250 shots by putting 1 drop on threads of piercing tube cap, pump pivot pins & pump cup & tip of CO2 cylinder. A light coat of Pellgunoil® on barrel helps prevent rust. Pellgunoil tube recommended for all types of CO2 pistols/rifles. Lubricates & protects seals/rings. Apply a drop on top end of cartridge every time you change CO2 cartridge.

- For CO2 & multi-pump pneumatic guns
- Put a drop on tip of every third 12-gram or 88-gram CO2 cartridge before inserting it
- Frequently apply a drop of Pellgunoil to pump head of a multi-pump pneumatic gun
- Seals the gun

DO NOT use petroleum distillate based oil or solvent & DO NOT over-oil as this can cause damage to your airgun.

VFG BARREL CLEANING FELTS

These small felt screw-on pellets, which are calibre specific are used with VFG Cleaning Rod to clean your barrel. Felts screw onto cleaning rod tip & then passed down barrel to give a smooth & effective clean. Instructions for Use:

1. Push adapter with two felts carefully through barrel from breech end & out of muzzle. Special felts compress into rifling & follow it exactly. Forward pellet removes fouling out of muzzle & by pulling back rod, dirty pellet drops off metric thread, leaving screwed pellet to polish barrel by pushing rod backwards & forwards.
2. If barrel is to be oiled, screw VFG Rifle Cleaner onto adapter, soak this thoroughly with weapon oil (Ballistol or Ustanol) & repeatedly move it back & forth in barrel.
3. Place a second VFG felt cleaner onto metric thread (used together a screw for cleaning of shotguns)
4. Take Adapter & screw this onto VFG Cleaning rod No. 66889 (900 mm Long).
5. In order to remove rubbed off metal, please use Super Intensive Cleaners.
6. Screw a VFG felt cleaner onto coarse thread of adapter.
7. To remove the oil repeat steps 1 - 4.

BROWNING STOCK OPTION

MRP Excl.GST	GST%	MRP Incl.GST
3,913.56	18%	4,500.00

Product Code: 12906

Good advice from Browning crew-get one. For guys who hunt in tough country, in bad weather, in any fast paced hunting environment, you will eventually own Browning Stock Option. It simply keeps right things close at hand. Five cartridges on outside & room for extras in zippered pouch. Like room for a lighter, a small knife, a zip tie for your tag, cleaning gear, emergency stuff. It is not huge but just big enough to become an essential part of your rifle. Made from rugged ballistic nylon with a neoprene comb pad. It attaches securely to hook & loop tabs & is made to accommodate sling swivels. This is a well-thought-out addition to your Browning rifle.

SWORD BREAKER TRAINER

Product Code: 92BKSB

Blade Length: 31"
Overall Length: 39 1/8"
Material: Polypropylene
Weight: 17 oz

Martial Artists have known a simple truth for ages - If your ultimate goal is to wield a sharp blade safely and effectively, you need to supplement your training with a tool that approx. size, feel and heft of a blade, yet minimizes possibility of causing grievous, permanent injury to yourself or your training partner. This concept was implemented by many cultures, including ancient Romans, who used wooden swords to train their Gladiators.

USMC Dog Tag Multi Tool is the perfect combination of military and survival. Like a traditional dog tag, it comes attached to a ball chain but has the additional benefits of a small knife and scissors. The dog tag multi-tool is blank on one side for laser engraving option and USMC logo print on another side.

Saltwater treble hook	Corrosion-resistant black chrome finish
Three Super Needle Points	
Short shank and forged bends	Pocket & Pro Packs

Description:

Owner's ST-56 Stinger Treble Hooks are super strong treble hooks designed to withstand demands of strongest game fish in both fresh & saltwater. It is super strong, super sharp & is a favourite among big bait fishermen who often add an additional stinger treble to their big hunks of plastic. Features include a super needle point, anti-rust super tinned finish & short shanked to suit all style lures. This hook is new go-to for any treble hook bait that necessitates strongest treble hooks on market-we find them to be especially effective for swimbait fishing when targeting trophy largemouth & striped bass.

Surecatch Hook Sharpening Stone

Product Code: 578-HK/S
Description:

MRP Excl.GST	GST%	MRP Incl.GST
97.14	18%	110.00

A sharpening stone is an essential tool for all anglers. Even chemically sharpened hooks get blunt & a few quick strokes over a sharpening stone can have you back in game with your hooks performing at their best. Never hit water without a sharpening stone handy to ensure you can take chance when it's presented. & when it comes time to fillet your catch, sharp knives are essential. They make job easy & simple & avoid wastage of fish as well as avoiding injuries from users trying to push through a blunt knife.

Product Code: PMSB-1
Technical Data

Exclusive Power Bait scent & flavour - Fish bite & won't let go

Realistic natural color

Deadly drop shot minnow shape

Description:

These can be used just about anywhere, estuaries, reefs, blue water, freshwater or impoundments. No tackle box should be without these classic fish catchers. Still winning bream & bass tournaments to this day, bait-fish profile combined with a 'wounded baitfish' retrieve is deadly on wide range of Australian fish. Minnow can be fished from top water all way to bottom with appropriate Nitro jig head. Better technology & better value than any other plastisol based baits on market. Power Bait soft plastics are scented & flavored with exclusive Power Bait formula that is uniquely infused into plastic itself, fish bite & won't let go!

WJF-45	45mm	348.21	12%	390.00
WJF-55	55mm	348.21	12%	390.00

Description:

Effortless gliding left & right across surface, BiRage Weed Jack frog has all features to trigger strike from BIG Snakehead(Murrel). Life like accuracy, detailed color & fine action make this a first choice of anglers, maximizing thrill of top water fishing to a higher level. Weed Jack is perfect choice for fishing over heavily weeded areas or lily pads. Weedless design allows it to be worked over cover without snagging.

Fishing (Lure & Accessories)

Zerek Auto Frog

Product Code:
781-FWA48FG

Technical Data

Comes with dressed rear treble hook
Textured translucent body
Gel-coated realistic 3D eyes
Length: 48 mm
Weight: 8 g
Type: Top Water

MRP Excl.GST	GST%	MRP Incl.GST
482.30	12%	540.00

Description:

Zerek Auto Frog mimics fleeing bait on surface by producing a Skimming action with pulsating splashes in-between. Like Gandalf, an Auto frog is well balanced to ensure it always lands on its belly every cast. Upward facing double hooks minimizes fouling weeds when fishing in heavy cover.

SureCatch Weedless Plug Tiny Frog

Code	Weight	Length	MRP Excl.GST	GST%	MRP Incl.GST
578-FTF07	7g	48mm	328.92	12%	370.00
578-FTF13	13g	55mm	351.08	12%	390.00

Description:

Tiny Froggy is smallest member of formidable SureBite Weedless plug family. Constructed using only top grade synthetic rubber material for superior resilience & elasticity, froggy cruises on top water with its skirt-like hind legs, creating ripples that will excite lily pad dwelling predators like snakehead and arowanas. The Aerodynamic Weight Construction (AWC) further enhances its castability to reach out to far ends of lake, while carefully positioned weight gives Froggie maximum floatation & unparalleled balance on water. Furthermore, every single froggie is equipped with a high grade carbon hook fitted onto a welded hanger for superior strength. Angler can now wrestle brutes out of the lily pads with full confidence.

MEPPS Aglia Long Cast

Description:

Mepps LongCast spinner with its heavy bullet-shaped body & fin takes effort out of long-distance casting. Fishermen can now cast further & fish deeper than they ever have before. Because LongCast sinks quickly & stays close to bottom throughout retrieve, it's perfect for fishing heavy current or deep water. It adds a new dimension to pier fishing. Every component on LongCast, from wire to hook, has been carefully selected & tested with other components to assure proper balance. Weighing in at 5/8 oz., #3 LongCast is a full 85% heavier than a #3 Mepps Aglia, & it is 65% heavier than competition. #5 LongCast weighs 7/8 oz. It is 75% heavier than a #5 Mepps Aglia, & weighs twice as much as competition's #5 spinner. In fact, heavy-weight #5 LongCast is 30% heavier than competition's #6 spinner.

Zerek Gandalf Frog

B1S Aglia Plain Spinner Treble 1/8-Ounce (Silver)

MRP Excl.GST	GST%	MRP Incl.GST
447.62	5%	470.00

Description:

Aglia spinner is original French spinner. It is World's #1 Lure; more trophy fish have been caught on Mepps Aglia than any other lure. Its classic French blade provides continuous flash & vibration. Either will attract fish, but together they become a deadly combination game fish can't resist. Plain treble hook Aglia features extra sharp hooks with brightly colored strike-attractor sleeves. The Aglia's "backbone" is its heavy duty stainless steel shaft. Attached to this shaft is a concave oval blade, spinner body &, of course, hook. Blade can be silver or gold plated, polished brass, copper, or painted with computer age Epoxy. This is a Plain Spinners in Silver color.

Description:

Great to relax & enjoy a spot of quiet time, this hanging hammock will help you relax at end of busy day. This quality Hammock is easy to set up & stow away. Lightweight & compact when folded. It made with 100% high strength parachute nylon 210T, fast drying, easy to clean. All weight bearing seams have triple interlocking stitching for strength & safety. Easy to use free pair of nautical grade ropes made it hang on anything (tree, pole, boat masts etc.). Using high quality steel materials, bent-gate carabineers is lighter & more solid than normal steel ones. Whether you're ready for wild good time at festival or peaceful evening on pristine beach, our parachute hammock can go anywhere you go. Just stuff it in its special sack & be on your way.

Features:

- Super strong breathable & quick drying woven nylon & is constructed using heavy duty triple interlocking stitching. Weight capacity for 2 people.
- Easy fixing, just fix hammock with two binding strings & tie string to trees or poles.
- Hammock is made of 210T parachute nylon fabric, which is strong, durable & breathable. It is attached with a ideal drawstring pouch to make hammock easy to carry & use.
- Two solid 2x8 cm steel carabineers & two extra tough 6.6 ft nautical grade hang ropes with tree friendly rope sleeves are included for quick & easy set up.
- Hang ropes pack inside a separate stuff sack for easy storage.

ENGLISH BLUNDERBUSS, 18TH. CENTURY - NON FIRING REPLICA

MRP Excl.GST	GST%	MRP Incl.GST
14,633.93	12%	16,390.00

Measurements:

- Weight (Kg): 1.6160
- Length: 29 Inches
- Finish: Antique Gray
- For Decorative Purposes Only

Key Features:

- Non-fireable Replica
- Functional Lock Mechanism
- Made of quality wood and metal
- Brass or Antique Gray Finish

Product Code: 1094/G

Word "Blunderbuss" is derived from Dutch word 'Donderbus' meaning thunder pipe. As name suggests, this superior piece of craftsmanship was considered to be a primary form of shotgun or muzzle loader, which was often modified to military & defensive use. English Blunderbuss which was extensively known to be effective for short ranges, were primarily issued to troops such as cavalry, who needed a lightweight, easily handled firearm. Major advantage of this weapon was it's compact size due to which the storage of it was made convenient. Displayed non-firing replica of English Blunderbuss has an effectually functional Lock Mechanism.

REPLICA - FLINTLOCK PISTOL MANUFACTURED BY BUNNEY, ENGLAND 18TH.C

MRP Excl.GST	GST%	MRP Incl.GST
1,883.93	12%	2,110.00

Key Features:

- Authentic Detailing
- Pewter Finish
- Non-fireable
- For Decorative Purposes Only
- Functional Lock Mechanism

Measurements:

- Overall Length: 6.5 Inches
- Barrel Length: 2.5 Inches
- Weight: 8 oz.

Product Code: 237/G

Flintlock pistols were so called because the lock uses a flint to strike sparks into the priming pan when the trigger is pulled. A small amount of gunpowder in this pan is ignited, which in turn ignites the main gunpowder charge in the barrel, firing the lead ball. Both the main charge and the ball were loaded from the front, or muzzle, of the barrel, after which the priming charge was poured into the pan all very time consuming! Often the priming charge would burn but fail to ignite the main charge whence the expression flash in the pan! The original of this particular flintlock pistol was made in London during the 18th century.

THREE-CANNON PISTOL, MANUFACTURED BY LORENZONI, ITALY 1680

Key Features:

- Functional lock mechanism
- Metal and detailed synthetic grips
- High quality historical reproduction
- Non firing replica

"Flintlock" pistols were so called because lock uses flint to strike sparks into priming pan when trigger is pulled. A small amount of gunpowder in this pan is ignited, which in turn ignites main gunpowder charge in barrel, firing lead ball. Both main charge & ball were loaded from front, or muzzle, of barrel, after which priming charge was poured into pan—all very time consuming! Often priming charge would burn but fail to ignite main charge—hence expression "flash in pan"! Original of this particular flintlock pistol was made by Lorenzi in Italy in about 1680 & engraved coat of arms is that of famous Medici family. This non-firing version is accurately detailed - a great costume or conversation piece.

Pepper-box revolver or simply pepperbox is multiple-barrel repeating firearm that has three or more barrels grouped around central axis. It mostly appears in form of a multi-shot handheld firearm. Pepperboxes exist in all ammunition systems: matchlock, wheellock, flintlock, percussion, pinfire, rimfire & centerfire. In 15th century, several single-shot barrels were attached to a stock. Around 1790, pepperboxes were built on basis of flintlock systems, notably in England. This type of firearm was popular in North America from 1830 until American civil war.

Measurements:

- Overall Length: 14.57 Inches
- Weight: 2 lbs

Key Features:

- Non-fireable
- Functional Lock Mechanism
- Authentic Details
- For Decorative Purposes Only

Left Handed English Flintlock Pistols were developed in late 18th Century & were definitely considered unique & 'one-of-a-kind'. This beauty was designed to be drawn & fired with left hand, hence leaving your right hand free to wield a cutlass. By placing lock on left side prevented it from snagging on clothing when drawing from firer's belt. What makes this impeccably designed Replica Flintlock Pistol unique is that it has been tailor made for a Left-Handed Draw. This Non-firing replica Flintlock Pistol is installed with a working Lock Mechanism and Trigger.

A SET OF 2 ITALIAN DUELING PISTOLS, 1825 - NON FIRING REPLICA

Product Code: 2-1013/G

Measurements:

- Overall Length: 15 Inches
- Barrel Length: 9 Inches
- Weight: 1 lb. 2 oz.

Key Features:

- Authentic Detailing
- Pewter Finish
- Non-fireable
- For Decorative Purposes Only
- Functional Lock Mechanism

These 1825 Italian Dueling Pistols come as set which includes wooden box & two Flintlock pistols. This flintlock pistol set is great for re-enactment duels whether on stage or at fair. Caplock or Percussion Lock pistols were so called because lock system causes percussion cap to be struck by hammer when trigger is pulled. Powder inside cap ignites & this in turn ignites main powder charge, which propels lead ball from barrel. Most (though not all) caplock firearms were loaded from muzzle of gun (muzzle loaders). Caplock was great improvement over flintlock as it was less susceptible to weather-related misfires. Original of this pistol was made in Brescia, Italy in about 1825. This non-firing version is accurately detailed & shows typical Italian craftsmanship, a great costume or conversation piece.

REPLICA - COLONIAL 1806 REPLICA NAPOLEONIC FLINTLOCK PISTOL

Key Features:

- Authentic Details
- Non-fireable
- For Decorative Purposes Only
- Functional Lock Mechanism

Measurements:

- Overall Length: 14 Inches
- Barrel Length: 7.375 Inches
- Weight: 1 lb. 8 oz.

Product Code: 1063

Napoleons personal flintlock pistol was made in 1806 by Jean-Baptiste Gribeauval, of St. Etienne and is preserved in a French museum. History records the fact that it was used as a traveling pistol, carried by Napoleon in his overcoat. Napoleons insignia is prominently displayed on grip and the gun making talents of Gribeauval are readily apparent. This non-firing replica is accurately detailed and provides a great collector and conversation piece.

Word blunderbuss hails from Dutch meaning 'thunder-pipe'. Blunderbuss is a muzzle-loading firearm, predecessor to shot-gun. Earliest use of blunderbuss was in 17th century, & continued until middle of 19th century, around 1840s. Heaviest use of Blunderbuss was during "Golden Age of Piracy". Many were left unemployed after War of Spanish Succession (1701-1714) & turned to piracy to make living. Large portion of maritime commerce was violated & plundered. Floral pattern on pommel. Must have if you envisage yourself in world of "Pirates Of Caribbean".

1892 Winchester rifle, descendant of Henry & 1866 "Yellow Boy" rifles, was made from 1892 until 1941 & total production was in excess of one million pieces. Many variations & calibers were introduced over course of 50 years production, but basic design was largely unaltered & fact that many are still in use today as hunting rifles bears testimony to reliability & longevity of gun. This non-firing replica clearly demonstrates workings of famed lever action loading system.

LAND PATTERN MUSKET "BROWN BESS", ENGLAND 1722

- Blade Length : 17 Inches
- Non-fireable Replica
- Type Collectible: Rifles & carbines
- Epoch: Historical Weapons XVI-XIX C.

MRP Excl.GST	GST%	MRP Incl.GST
20,125.00	12%	22,540.00

Replica of English "Brown Bess" rifle made of wood & metal & with loading & firing movements. Gun, officially called Land Pattern Musket, was one of most used firearms during eighteenth & nineteenth centuries. It was avant-charge carbine, long & heavy, with smooth bore & large caliber. It is notable for its robust construction & reliability of its flintlock mechanism, but also for the scarce range & low velocity of projectile, in line with similar weapons of that time. This rifle was basic weapon of British infantry during revolution of American colonies & in Napoleonic wars, in which strategic talent of Napoleon Bonaparte excelled. Relive Napoleonic battles of early 19th century with replica of this DENIX carbine.
